New Delhi, Dated 29th October, 2016

To,

Head of ABCTTs
(in per lot)

Subject: Setting up of National Digital Library in IT Khargpur.

Dear Sir/Madam,

As you may kindly be aware, the Ministry of Human Resource Development is establishing the National Digital Library (NDL) under the National Mission on Education through Information and Communication Technology (NMEICT) with the objective to host a national repository of existing e-content available across educational institutions in the country and e-content developed under NMEICT.

1. IT Khargpur has been entrusted to host, coordinate and set-up National Digital Library (NDL) of India towards building a national asset. The objective of the project is to integrate all the existing digital and digital contents across educational and cultural institutions/institutes to provide a single window access to different groups of users ranging across the entire population. NDL will fetch metadata of the contents and store and index those metadata in the National Digital Library system so that all the e-content can be searched and accessed in the future by users through a single window. NDL does not store the actual (full-text) contents in its servers, instead it gives to users links of respective content hosting sites as part of search results. Users access contents from respective content hosting sites by clicking these links. Please visit <http://ndl.gov.in> to get a view of the initial version of NDL. Regular updates on the project are available at: <http://www.facebook.com/NDLIndia/>

2. I shall appreciate if you may kindly disseminate this among your students and potential beneficiaries so that it can be utilized in the best possible manner.

Yours faithfully,

(B. Subramanyam)
Additional Secretary (TE)
