Message of Vice-Chancellor

It's a pleasant to see the latest edition of CUSB Times, the Bi-Annual Newsletter of Central University of South Bihar. I am congratulating the publisher of the Newsletter for putting their best efforts for compiling the achievements and success stories of the University. I found that during this six months period the faculty members and students with ardent support of the officials and staff have achieved many successes that deserve plaudits. Just few days after my joining in order to celebrate the 1st anniversary of National Education Policy (NEP) 2020 on July 29, 2021, a webinar series was organized by various departments of the University to discuss the various aspects of the policy. I am firm believer of Indian Constitution and Preamble is like a heart of the Constitution, so I took the initiative to install the Preamble engraved on Black Marble slab at two places within the University premises. Reading the Preamble time-and-again give us a proper direction as Citizen of India. I wish the University has more-and-more achievements in its kitty in the coming time.

Prof. Kameshwar Nath Singh

Message of Registrar

Publishing the CUSB Times always give an encouraging feeling as we get a chance to have a look into the success stories of past and prepare a roadmap for future for achieving the new milestones. I invite the readers to go through pages of CUSB Times and get a fair idea about the journey of the University during this period (July – December 2021). From Academia to Co-curricular activities our teachers and students have shined everywhere. Most remarkably the students along with maintaining their academic activities have won several national and state level awards in various competitions. We adore those achievements and with utmost sincerity carried them in this Edition of CUSB Times.

Col. Rajiv Kumar Singh

Editorial

As the Editor and Co-ordinator of CUSB Times, I feel glad to bring this Edition of the University Newsletter. The period somehow remained challenging due to global pandemic of Covid-19 but despite the challenge the enthusiasm among the University fraternity to maintain the goal of "Academic Excellence" kept going. The faculty members besides conducting classes, got their papers published in national and international journals, books, attended seminars and conferences through virtual mode, got the project grant and many other achievements. The students too followed the footsteps of their mentor teacher and participated in different competitions organized across the country. The achievements are remarkable and you as a reader would definitely find them really praiseworthy. Wish you a Very Happy Reading.
