

| Sample ID | Element Type | Concentration (ppm) | Concentration (ppm) | Concentration (ppm) | Concentration (ppm) |
|-----------|--------------|---------------------|---------------------|---------------------|---------------------|
| 1         | Carbon       | 12.5                | 12.5                | 12.5                | 12.5                |
| 2         | Hydrogen     | 1.2                 | 1.2                 | 1.2                 | 1.2                 |
| 3         | Oxygen       | 15.8                | 15.8                | 15.8                | 15.8                |
| 4         | Nitrogen     | 0.5                 | 0.5                 | 0.5                 | 0.5                 |
| 5         | Sulfur       | 0.2                 | 0.2                 | 0.2                 | 0.2                 |
| 6         | Phosphorus   | 0.1                 | 0.1                 | 0.1                 | 0.1                 |
| 7         | Chlorine     | 0.05                | 0.05                | 0.05                | 0.05                |
| 8         | Fluorine     | 0.02                | 0.02                | 0.02                | 0.02                |
| 9         | Silicon      | 0.01                | 0.01                | 0.01                | 0.01                |
| 10        | Aluminum     | 0.005               | 0.005               | 0.005               | 0.005               |
| 11        | Iron         | 0.002               | 0.002               | 0.002               | 0.002               |
| 12        | Copper       | 0.001               | 0.001               | 0.001               | 0.001               |
| 13        | Zinc         | 0.0005              | 0.0005              | 0.0005              | 0.0005              |
| 14        | Lead         | 0.0001              | 0.0001              | 0.0001              | 0.0001              |
| 15        | Mercury      | 0.00001             | 0.00001             | 0.00001             | 0.00001             |
| 16        | Barium       | 0.000001            | 0.000001            | 0.000001            | 0.000001            |
| 17        | Strontium    | 0.0000001           | 0.0000001           | 0.0000001           | 0.0000001           |
| 18        | Calcium      | 0.00000001          | 0.00000001          | 0.00000001          | 0.00000001          |
