

About the University

Central University of South Bihar, Gaya (Erstwhile Central University of Bihar) was established in 2009 through Central Universities Act 2009 of Parliament. With a motto, i.e., '**Gyan Seva Vimuktaye**', the University has been conducting its academic and administrative activities in a 300 acre land at Gaya, Bihar. The University is progressive to carve a niche with its policies, programmes and innovations for quality education and frontline researches in higher education. In its academic endeavour, it has significantly achieved a landmark in terms of infrastructure, laboratories, research projects, faculty recruitments, procedural tasks, along with conduction of innovative programmes being offered. Recently, it has been accredited with **Grade A++ by NAAC**.

About the Vidya Bharati Uchcha Shiksha Sansthan (VBUSS)

Vidya Bharati Uchcha Shiksha Sansthan (VBUSS) is working in the sphere of higher education. VBUSS is a beacon of hope and enlightenment aiming at building more than just students; it aims at crafting complete and able generations that will go on to shape the future of our country and society. VBUSS's programs and activities are aimed at Integrating Bharatiya Knowledge system in the education domain, become an active player in research and fostering futuristic education, conducting teacher training programmes and helps in institutional building. Efforts have been witnessed through a huge participation from intellectuals and stakeholders in the higher education domain in several such experiments as per the mandate of NEP 2020. Several such experiments in collaboration with Universities and Institutions of repute are available in the form of publications.

About the National Workshop

In the context of an ever-changing world and global economy, Bhartiya Education System needs a complete overhauling and re-energising of the higher education as well as developing a globally and locally connected education system to overcome the challenges in the current system and thereby deliver high-quality higher education, with equity and inclusion to cater the need of 21st century learners and fulfil the need and aspirations of society. **Bharat Centric Education**, the judicious blend of '**Bhartiya Gyan Parampara (BGP)**' and Modern Education System' develops a sense of respect towards fundamental duties and constitutional values and a conscious awareness of one's roles and responsibilities in a changing world that helps to make a more inclusive, equitable, cohesive, responsive, productive and global citizen considering the trinity of **Demography, Democracy and Diversity** (3Ds) that leads to develop our nation as global knowledge superpower. In this regard, **Geography Education** helps to ensure significant contributions for achieving the Sustainable Development Goals (SDGs) in various ways like natural resources management, infrastructure, regional and spatial planning management, disaster management, environmental conservation and cultural heritage preservation etc. Therefore, curriculum, content, pedagogical and assessment practices in

Conti....

Geography at every spectrum of education needs to be redesigned in the light of BGP, which must strongly be rooted in the Bhartiya ethos in terms of culture, traditions, heritage, customs, language, philosophy, geography, ancient and contemporary knowledge, societal and scientific needs, indigenous and traditional ways of learning etc. (NEP, 2020). NEP 2020 advocates a multi-disciplinary and flexible approach to ensure the holistic development of learners through student-centric methods like experiential learning (*Shravan, Manan & Nidhyasana*) and inquiry-based approach in their learning. Ergo, in order to ensure the significant contribution of Geography in achieving SDGs as well as promoting 21st century competencies among learners for their holistic development, collaborative and sincere efforts of HEIs and different prestigious organisations are highly expected to develop a model curriculum, content and text materials in geography education including with recent tools and techniques like GIS, Remote Sensing etc. that helps to transform India as '**Atmanirbhar Bharat**' (NEP 2020). The CUSB is committed to develop a robust mechanism for academic as well as research ecosystem for impactful and sustainable outcomes that would help for achieving the aim of NEP 2020. VBUSS is also working in this direction to ensure the effective implementation of NEP 2020 at grass root level and structural reforms in the entire spectrum of Bharat's Education landscape.

Referring to the above-mentioned context and the pursuance of MoE, Govt of Bharat to ensure the effective implementation of NEP 2020, CUSB and VBUSS are jointly organizing Two Day National Workshop on '**National Education Policy 2020: Model Curriculum and Content in Geography**' in collaboration with **Indian Council of Social Science Research (ICSSR)**, New Delhi.

Objectives of the Workshop

1. To develop the skills for curriculum and content development in Geography aligned with NEP 2020.
2. To integrate the 'Bhartiya Gyan Prampara' in curriculum and content of Geography in perspective of NEP 2020.
3. To acquaint with the latest software and recent tools & techniques in Geography learning and research
4. To aware the teachers and stakeholders about the repository of Bhartiya knowledge system to promote Bharat centric research in Geography education.
5. To sensitize the academicians and educational philanthropists with the issues and challenges in developing curricula and content for higher education.

Focal Theme

Curriculum Development and Content Writing for Geography in Higher Education

Sub Themes

- i. Salient features of curriculum and content in contemporary Geography
- ii. Bharat centric approach in content writing of Geography
- iii. Inclusion of 'Bhartiya Gyan Paramapara' in the curriculum of Geography Education
- iv. Recent Tools and Techniques in Geography (GIS & Remote Sensing etc.)
